If you love rich radiant color in your artwork, you'll enjoy learning to create bright, loose colorful oil paintings by working with opaque paint colors layered over a colorful transparent background.

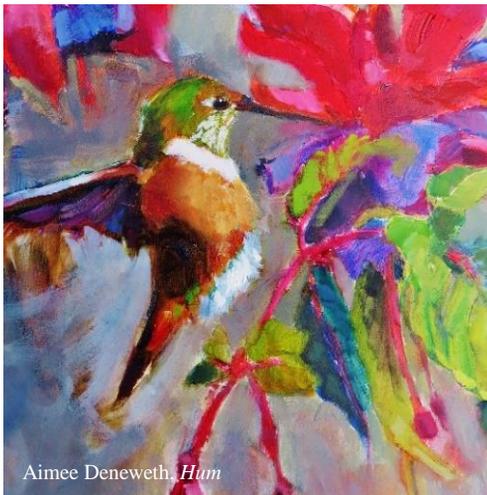

In this exciting class you'll learn the "secrets" of one of the most popular "daily painting" methods as seen online. The overall focus is on how to create vivid interesting colors by layering in oils, but you'll also explore and review key elements such as value, design, edges and brushwork.

Students will have the opportunity to work together "step by step" on the same painting as well as painting their own reference materials. This unique "wet in wet" oil painting approach works particularly well if you enjoy painting flowers, animals, and landscapes.

Artist Level: This class is for oil painters with some painting and drawing experience.
