This intensive six-month workshop is for artists who have already had artistic training and looking to improve their skills with well renowned master artist Kevin Weckbach. Each class will spend the morning with a lecture focusing on master artists and their painting styles. Then in the afternoon students will participate in a variety of drawing and painting exercises based on the master they have learned about.

Throughout the workshop students will develop their own painting by applying their exercises and the foundations of art to their own masterpiece.
