For more information call the Curtis Arts & Humanities Center at 303-797-1779

Students will create a large sculpture from design to construction and finish with painting. We will use tools, wire, paper mache and paint. Students learn various techniques from wire shaping to collage and textual layering. Each piece will have a story and we will experiment on methods of expressing that in the final work of art! Come use your imagination and create a life size sculpture!

**Wednesdays, April 5 through May 24
4:30 to 6:00 p.m.**

Instructed by Maggie Stewart

\$100

All supplies included

9 to 14 years old
