## POLICE DEPARTMENT

### *Programs and Services*

#### **Active Threat Training Program**

Designed for Police Officers to go on-site at your business and teach employees practical and simple tools and techniques to help you prepare for and respond to an active threat situation. The training is designed to increase awareness so employees can be equipped with the knowledge and understanding of how to escape active threat incidents. Topics include:

- Learn about options based active threat response protocols;
- Hear about recent trends in active threat events; and
- Discuss practical applications for effective deterrence and responses.

## Crime Prevention through Environmental Design (CPTED) Consultation

A CPTED certified Police Officer conducts an on-site visit and provides a multi-disciplinary approach to deterring criminal behavior through environmental design. Crime prevention recommendations are provided through a detailed report to increase safety of your employees and patrons and reduce opportunities for your business to be victimized of a crime.

## Emergency Notification Service – ArapAlert

Make sure your business and employees know about emergencies and disasters before or as they happen. The alerts will include natural disaster evacuations, hazardous materials contaminations, missing persons, terrorism preparedness, criminal activity, public health, and any other events that are deemed an emergency by the Greenwood Village Police Department. All land-lined telephone numbers located in the boundaries of Greenwood Village are already included in the emergency alert database so citizens will automatically get alerts through their land-line telephones.

You can also sign up to receive emergency alerts on any other communication devices such as cellular phones and emails. The messages will be delivered in the form of a voicemail, text message, instant message, fax or email depending upon the settings you choose. **Sign up - [ace911.colorado.gov](http://ace911.colorado.gov)**

## Hotel Outreach

Officers meet on a quarterly basis with hotel owners and managers to address challenges, share crime statistics and trends, and develop solutions for crime prevention.
