## **About Parks & Rec Month**

Since 1985, the United States has celebrated Park and Recreation Month in July to promote building strong, vibrant and resilient communities through the power of parks and recreation and to recognize the more than 160,000 full-time park and recreation professionals — along with hundreds of thousands of part-time and seasonal workers and volunteers — who maintain our country's local, state and community parks.

This year's Park and Recreation Month theme — "Where You Belong" — celebrates the many ways park and recreation professionals across the country foster a sense of belonging in their community by providing welcoming and inclusive programs, essential services for all ages and abilities, and safe, accessible spaces to build meaningful connection.
